PARACHILNA

Since 2013

Hello

Give light
and
people will
find the
way

Parachilna

Catalogue

A small tribute to faith and passion.

**BECAUSE STARS ALWAYS SHINE
BRIGHTER IN THE DESERT.**

Humble luxury.

Luxury is taking the time to craft the best product possible, without external pressure. It's surrounding ourselves with people we love to work with. It's respecting and honouring years of craftsmanship and enabling it to stay alive. And above all, luxury is not taking yourself too seriously, having fun.

We believe in emotional & long-lasting products. At Parachilna, we take the observer seat and let designers, materials and craftsmen work their magic.

Human-made.

Our lamps and most of our components are assembled and made by cutting edge technology machines: humans. There's someone that took out the ceramic from the mould, someone that blew the glass and someone that mounted the lamp and packed it.

All those persons imprint their energy in each fixture. That makes them unique and one of a kind. We believe that human-made is the best made!

BCN born & raised.

We are based in Barcelona, city with a great design heritage. It's where Spanish design and many groundbreaking architects were born. We feel inspired by this history and strive to leave our mark.

Our headquarters are located in Colonia Güell's industrial area. The layout was made by Antoni Gaudí. During its golden age, it was a textile factory that employed more than 1.200. Today, a lot of the buildings are falling apart, but they keep their soul. There's a special energy in the space that is certainly infused in Parachilna's lamps.

Because all deserts can be crossed.

*Because all trains stop even if
there is no railway station.*

*Because you do not need much to
build up a town or your own dreams.*

*Because stars always shine
brighter in the desert.*

And above all,
luxury is not taking
yourself too seriously,
having fun.

At Parachilna,
we take the observer
seat and let designers,
materials and craftsmen
work their magic.

Design: **Jaime Hayon** **2020**

When you see this lamp you immediately get transported to Morocco's silent deserts & characteristic flavours. We gave a modern twist to the classic Moroccan lantern.

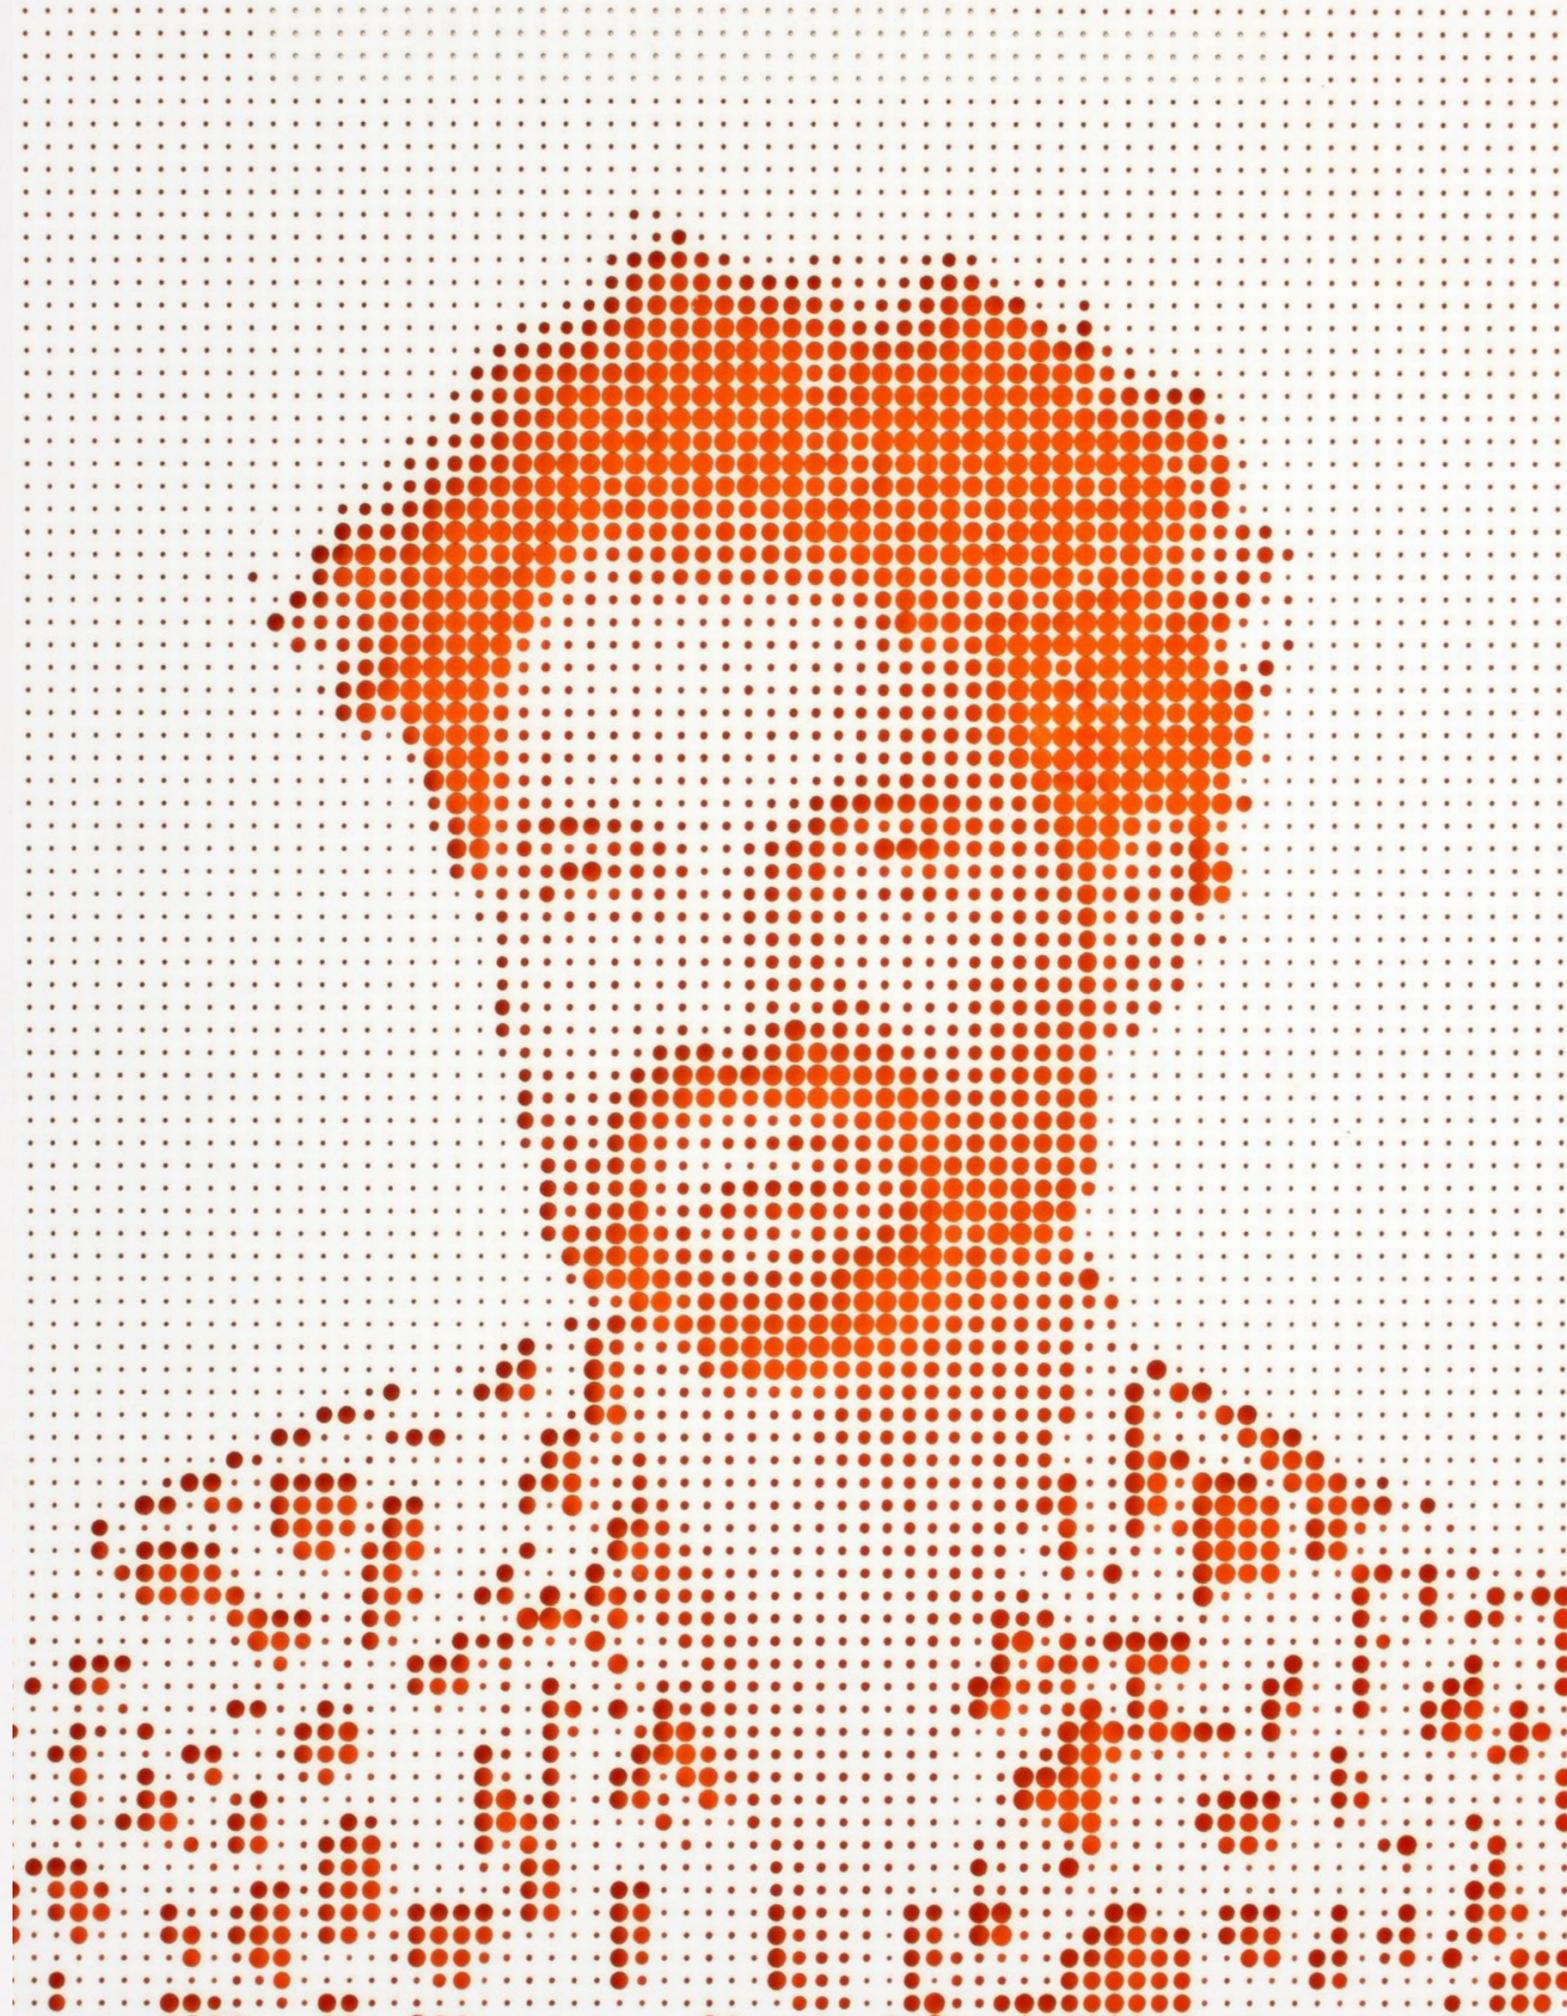

15

Jaime Hayon

“It all started with a trip to wonderful Marrakesh. Ma-Rock is a 21st century version of what Morocco's natural beauty and variety of crafts taught me”

Gweilo

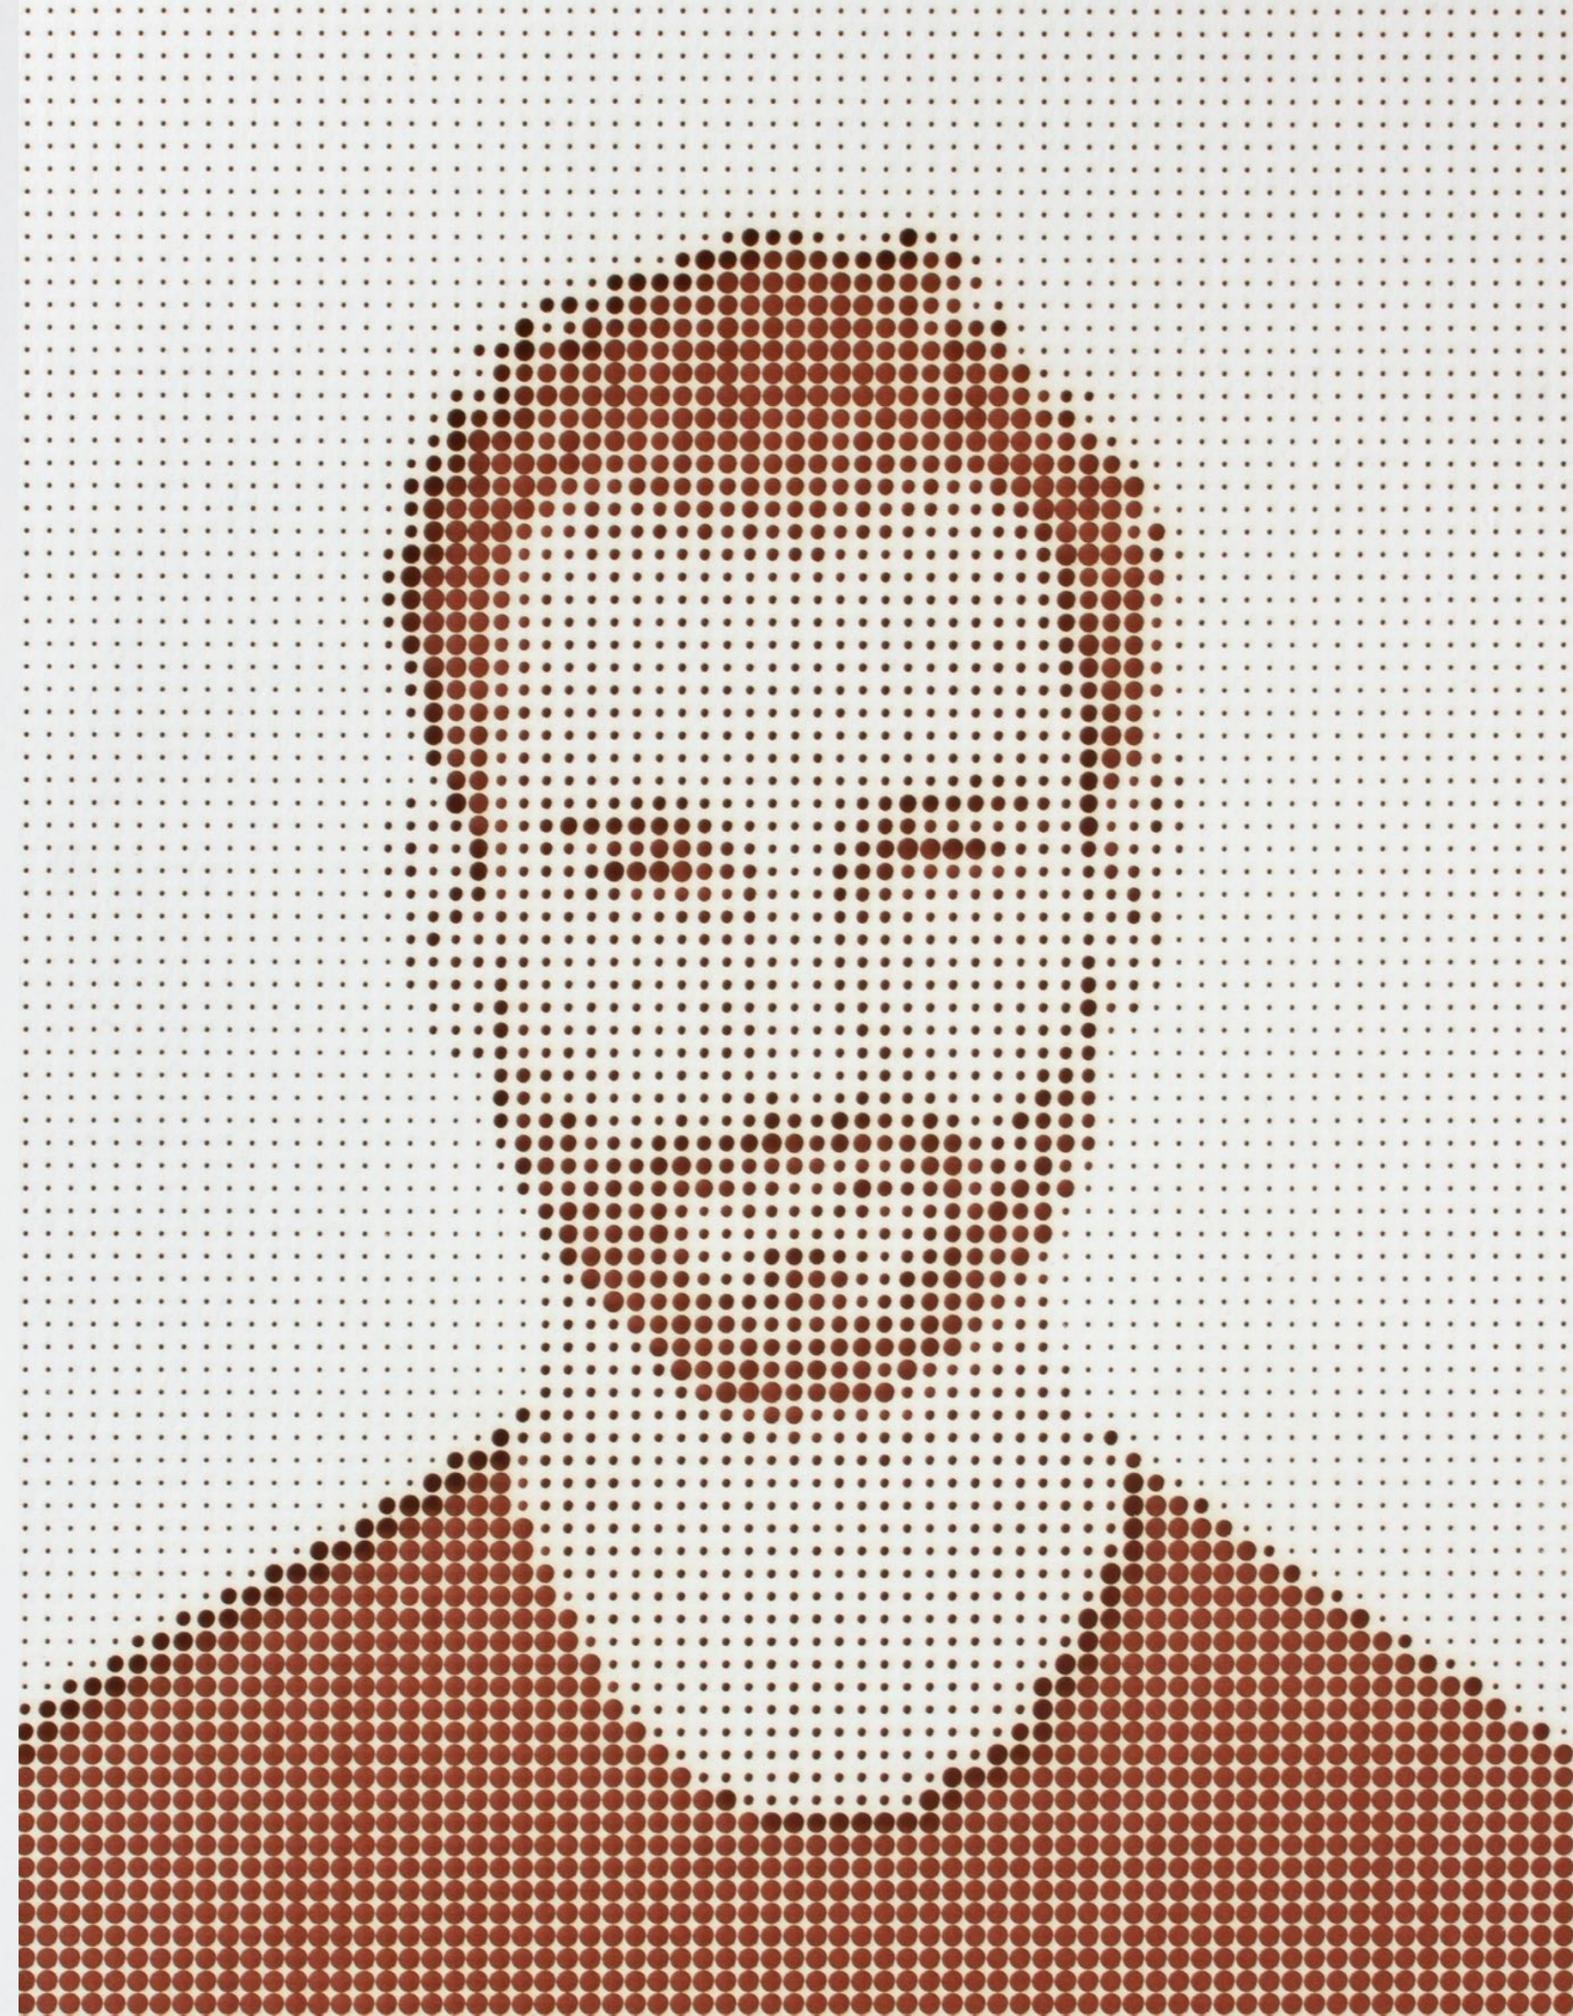

Design:
Partisans

2016

Its name means ghost in chinese.
Makes sense when you look at it, right?
Made from hand-molded acrylic.

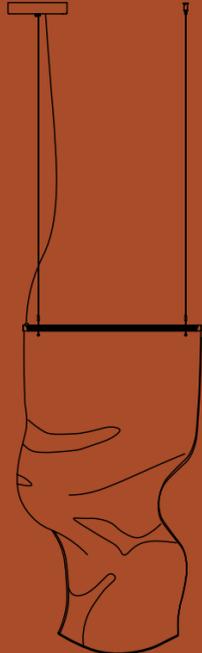

“Inspired by the idea that light itself could be harnessed and manipulated to create a physical sculpture, we developed a design that alters light at its source”

Petra

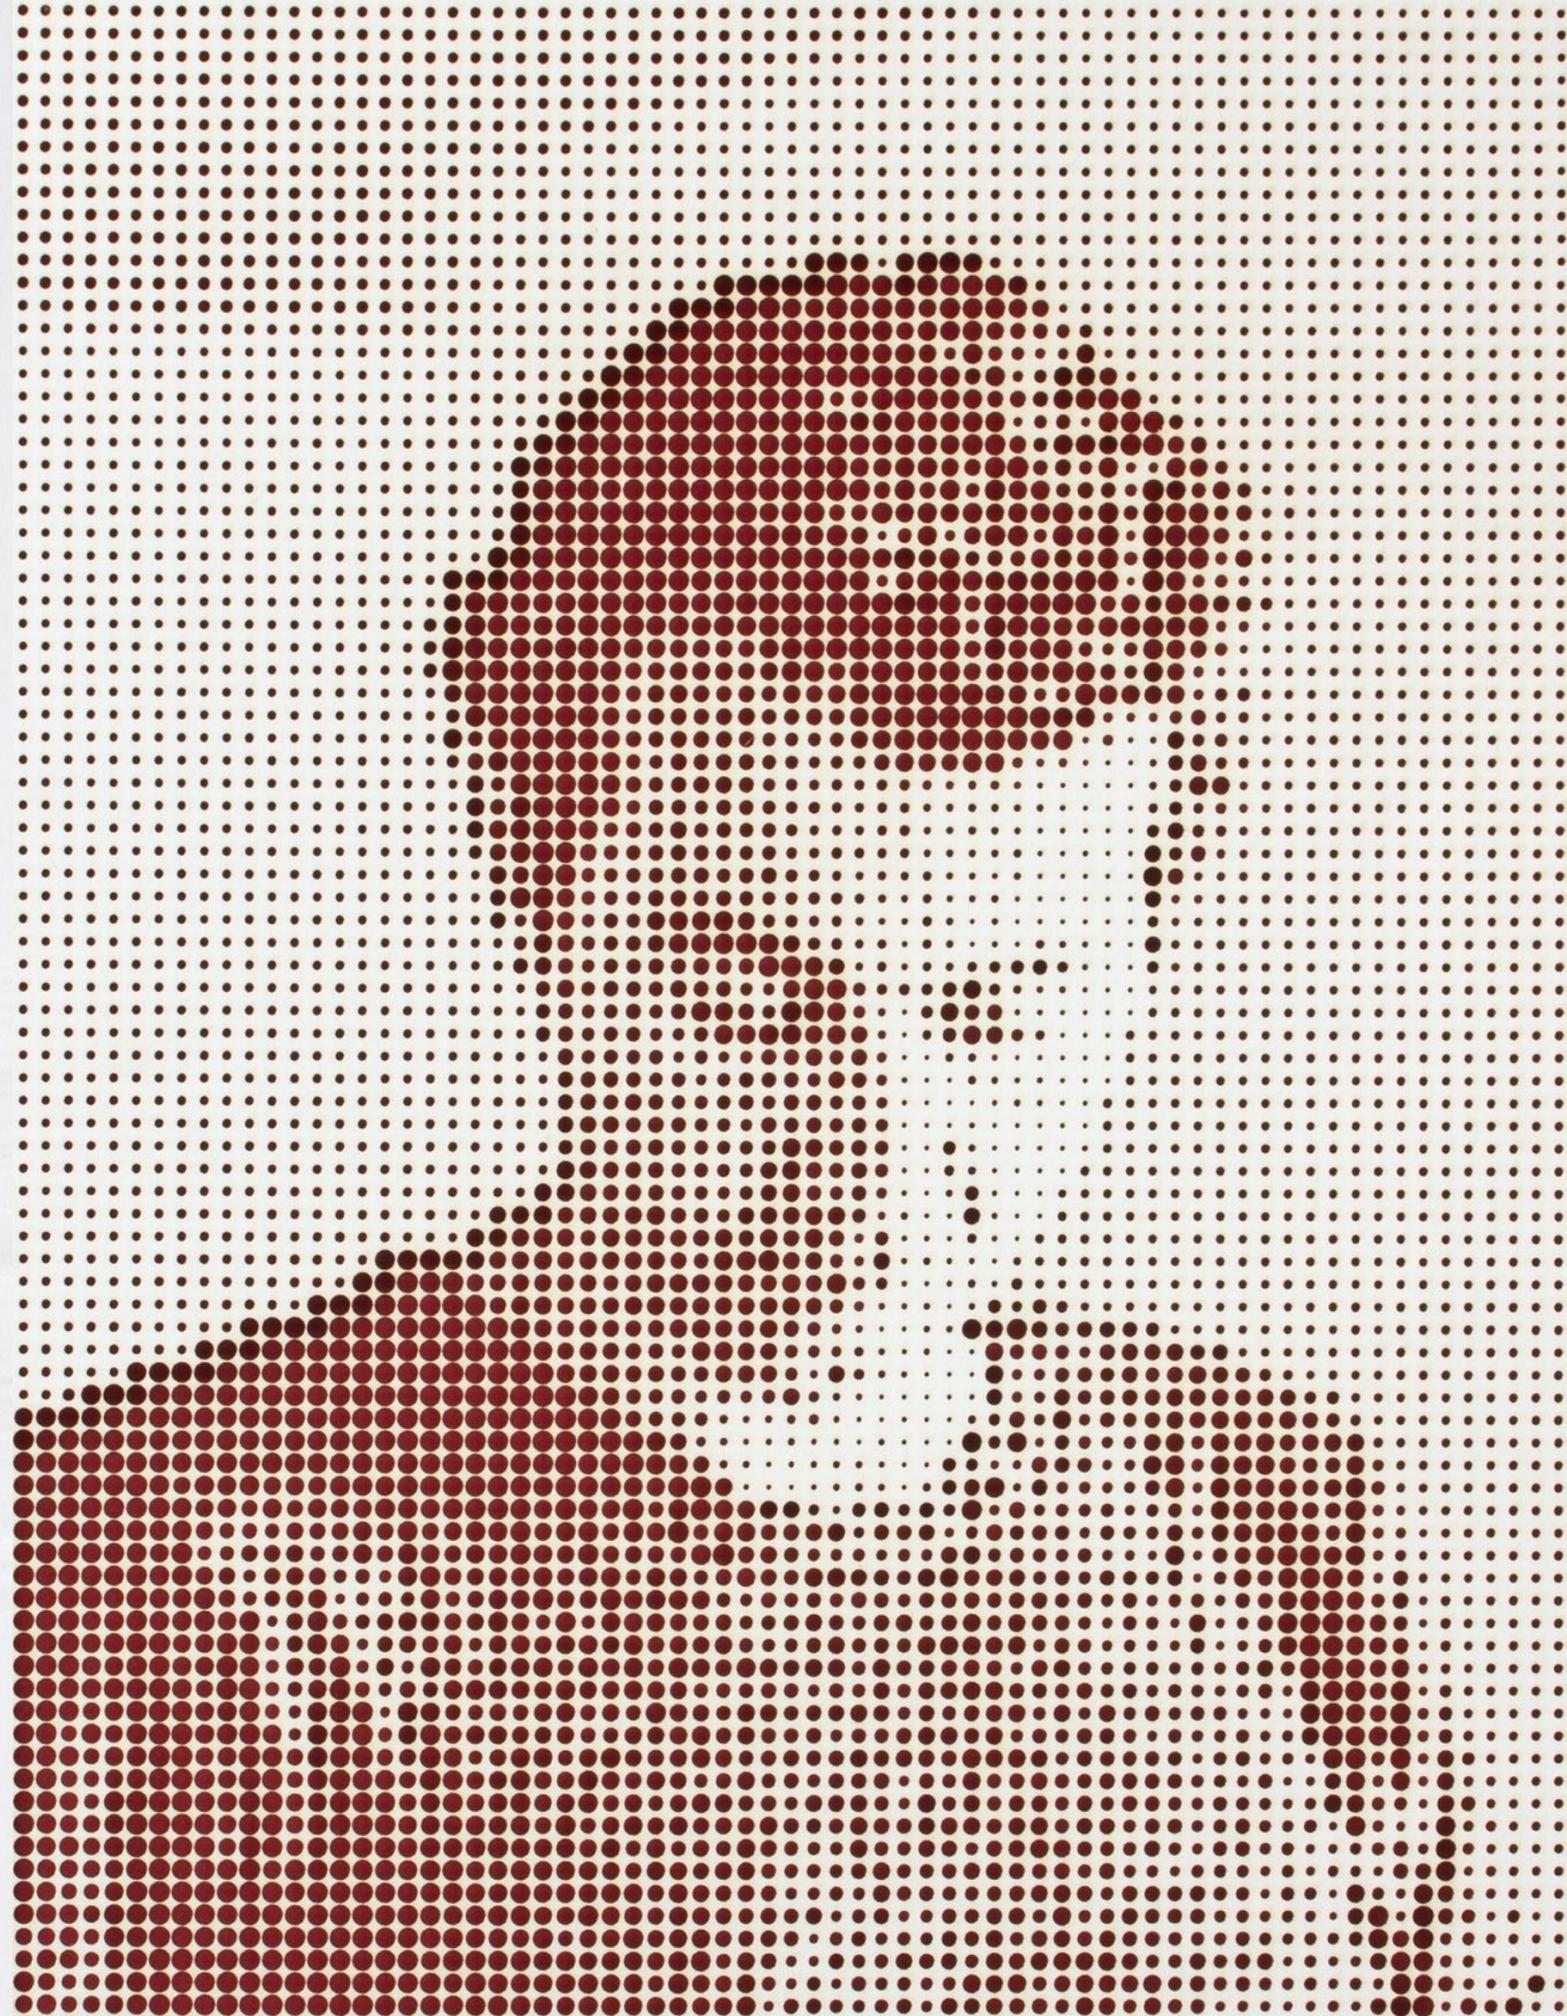

Design:
Jordi Veciana

2020 A cylindrical base, a conical shade both made from a single piece of alabaster. Pure utility, pure material. Simply beautiful.

Jordi Veciana

**“I thought about the
visual power of a
single piece of stone
— the longevity of its
material and its
ability to refract light”**

Petra & Ghan

Nitō

Design:
Dominik Lutz

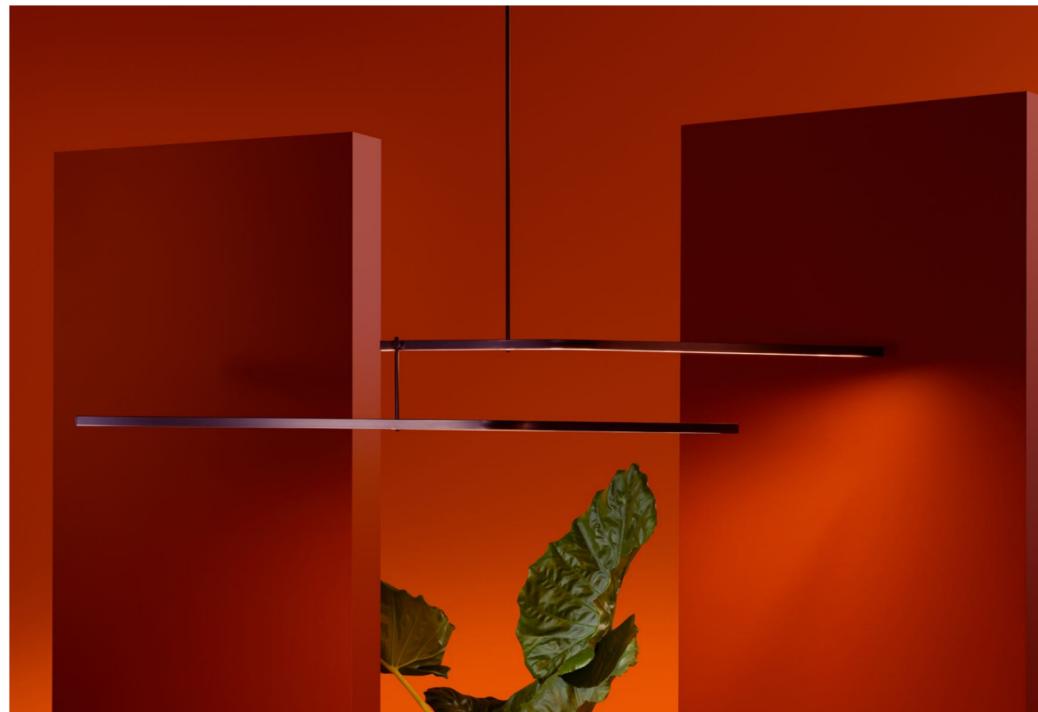

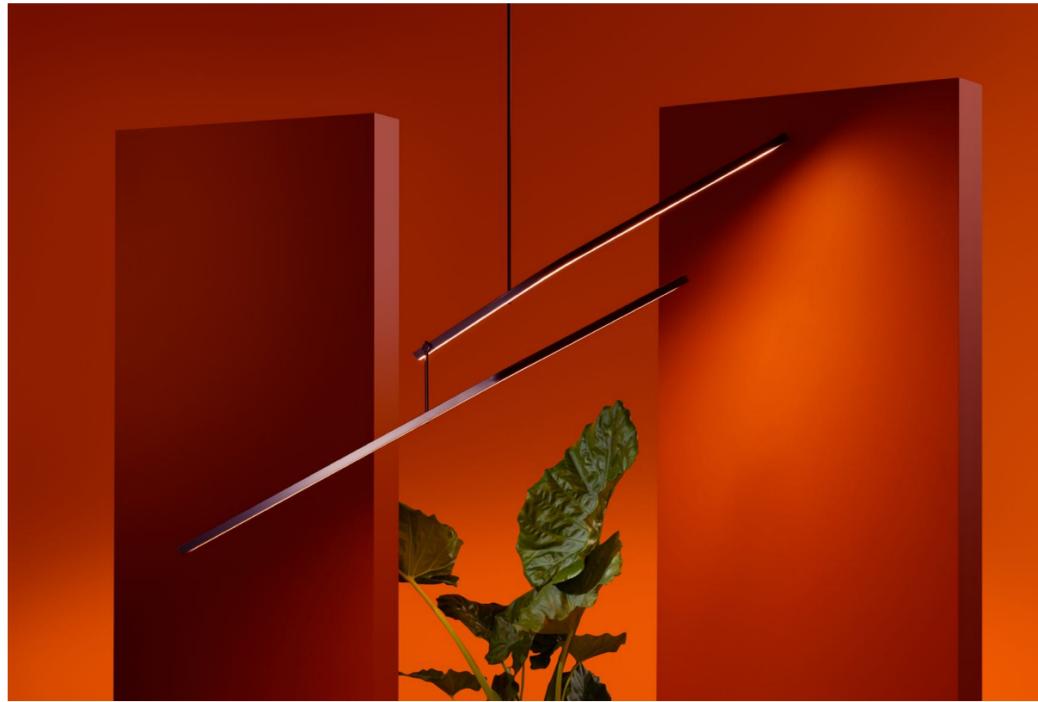

2019

Twist it, turn it, rotate it in whichever way you want. No matter the position, it always maintains itself in perfect balance. The name comes from a style of classical Japanese swordsmanship mainly known for the use of two katanas.

**“Nitō is a sketch
thrown into space.
Each of its
movements creates
a new form,
a different light -
always maintaining
perfect balance”**

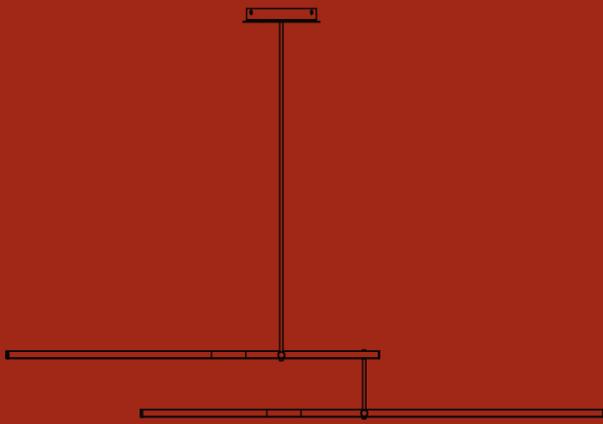

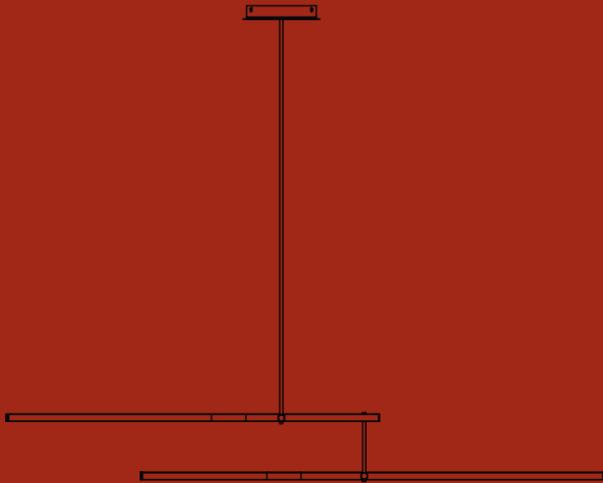

**“Twist it, turn
it, rotate it in
whichever way you
want. No matter
the position, it
always maintains
itself in perfect
balance”**
